Respeaking and simultaneous interpreting Having already defined respeaking, the following description summarises the practice of simultaneous interpreting: In simultaneous mode, the interpreter sits in a booth with a clear view of the meeting room and the speaker and listens to and simultaneously interprets the speech into a target language. In turn, the E4 was considered the most experienced and congruent evaluator. Click on one of your numbers and configure the Voice URL to point to our app.

At least three tools are available for this purpose: individual voice models. Once students have achieved the required accuracy and speed in dictation, they can practise respeaking proper. See our User Agreement and Privacy Policy. Both will be needed to make Twilio API calls.

In this controller we say a simple message and then ask the caller to choose search. You shelly3!
