This truth becomes quite precarious when one realizes that many negative birth outcomes will occur regardless of care. Further, once a woman gives birth by c-section, her chances of having a vaginal delivery for future births drops dramatically.

The doctors and nurses working under these institutional rules that prioritize Learn. Get A Copy.

Enter your email address below and we will send you your username. This decrease in vaginal births after cesarean sections VBAC is even more alarming: one third of hospitals and one half of physicians do not even allow a woman a trial of labor after a c-section, and 90 percent of women will go on to have the c-section surgery again for subsequent pregnancies. Bovjberg,

R.
