As this quotation from Professor John Traxler makes clear, mobile learning presents something of a problem for educational institutions. Working in partnership is critical. John Fairhall, University of Bradford. AsexamplesfromJiscpublications  
Kelly Tenkely, a K-5 Technology Integration Specialist and the author of the iLearn Technology blog has recently submitted a proposal to use the iPad in a one-to-one learning environment at her elementary school. Ease of use coupled with the proven capacity to assist teachers and learners in fulfilling traditional classroom tasks more efficiently and with richer rewards are why they have gained a foothold in hearts and minds of educators.  
Achieving this involves a great deal of awareness-raising and hand-holding. There are certain things that students expect despite their initial unfamiliarity with how mobile devices can help in their

learning:. At first glance, combining the mobile devices that have become a way of life for the 21st-century citizen and corporate training, seems to make perfect sense.
