Jemisin: Amazon. I Tears Of Ra (Dark Empire Book 1) recommend this book as it covers a one-year period in the time-frame of the planet Heliconia, a period of some several hundred Earth years, and presents a fine analogy of the rise and fall of a human civilisation that in the end cannot help, due to a major seasonal change, fall victim to the weather itself and the rulers of the planet become those whom the humans enslaved and trod upon during the hot portion of the year. There's too few scenes that show the consequences of Luke being evil and being a danger to our heroes.
