And while many have confined their studies to British and French exploration and while many have confined their studies to British and French exploration, Liebersohn goes farther afield, to Germany, Russia, Spain. Beautifully written, elegantly organized, and persuasive, this work is an innovative contribution to the history of travel, and should appeal not only to readers of discovery and exploration but to anyone interested in cultural and global history. His comprehensive coverage is impressive. Besides the characters he selects to examine, some of whom were born in German-speaking lands and others who ended up in them, the timing of the expeditions Liebersohn investigates is also crucial to the overall point he conveys about the transition from the "old" colonialism of the early modern era to the "new" imperialism of the modern era, roughly the century between and about which he notes "a real contrast between the age of royal courts, merchant commerce, and sails and the later moment of nation-states, industrial capitalism, and steamships" p. Oceania -- Description and travel.
