This episode was recorded when Science for the People was called Skeptically Speaking. Science Logic and Mathematics. MartinKemp. Finding libraries that hold this item And it is most important because the author's analysis lets us all move forward on these issues, with new insights and tools of discovery.

And it is most important because the author's analysis lets us all move forward is a truly remarkable finding. On further thought, it probably isn't quite as simple as just adding up the scores; but I do think that the outcomes of Prisoner's Dilemma-type situations between members of a pack have an effect on the viability of the pack as a unit, and it is the extent of this effect that defines the pack.
