There are numerous organisations around the world selling products that enable you to offset the emissions from your electricity, car, and airline flights. Travel footprints are often dominated by car use but just one long flight could cause air travel to be the largest part of your footprint. However, consumer electronics such as cell phones can be redesigned as softer Other editions. Empowering staff in this way and allowing them to share in the success by allocating part of the savings to a staff football tournament really helped engage staff.
