Good Points. Amazing post-apocalyptic fiction. It took me a while to warm up to this book—about pages or so.

Ness' worldbuilding is a little bit insane, literally, but also very unique and good. Todd, Manchee, and the girl are suddenly attacked by the town preacher, Aaron, who has recently been provoking Todd in physical and mental fights. She tells Todd that the Noise germ is in fact not fatal for women and does not affect them at all — none of the women have Noise. Why are these depictions often so disturbing?
